The customers then visit any SG Ghana branches and fill out a form for the promotion, which would include a request for a hold to be placed on the amount deposited for the promotion until the end of the promotion to confirm their participation in the promotion.

When a customer request for a hold (reservation) to be cancelled he automatically opts out of the promotion and would not participate in the draw.

When the customer wants to make a partial withdrawal of the amount held, the initial hold must be canceled and a new hold with a smaller amount created. The customer's entry into the promotion would start from the new hold (reservation) date.

Requirements to qualify for the draw

Customers must have deposits which are held for more than one (1) month and cumulative amount of the deposit held should be GHS1,000.00 and above to qualify for the raffle draw. The funds must still be held (reserved) as at the specified end date defined for each draw.

Draw mechanics

The draw will be an electronic draw. There will be two (2) draws i.e. a Mini-Draw and a Final Draw. For each draw customers must meet the above requirement. The number of entries for the draw will be calculated by dividing the cumulative sum of deposits made by the customer that meets the above requirements mentioned above by Two Hundred Ghana Cedis (GHS200.00).

The more deposits customers make, the more their chances of winning as they will have more entries for the draw. The longer the deposit stays the more their chance, as deposits held in the first 3 months of the promotion will have their entries doubled for the draw.

Draw Mechanisms

A Mini draw and Final draw to be held to reward customers. The number of entries calculated from deposit determines the chance for the draw.
